DETAILED ACTION

Allowable Subject Matter

Claims 11-14 are allowed over prior art.

The following is an examiner's statement of reasons for allowance:

Regarding claims 11-14, the prior art fails to teach an x-ray apparatus having a plurality of pairs of opposing electromagnets between which an electron beam is interposed and which moves the irradiation position of the electron beam that is irradiated on an x-ray target and a controller to energize a selected pair of electromagnets to control the irradiation position on the target and to energize another set of electromagnets after a set time related to the service of x-ray target has elapsed as claimed in independent claims 11 and 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
